Joseph S. Rengert, Interim Executive Director

## Important Information from the Executive Director

---

Thank you for participating in computer-based testing (CBT) for the Pennsylvania bar examination. Your cooperation during the administration of CBT regarding any unforeseen events is paramount to ensure the continued success of the program. The site supervisor is the final authority regarding any issues, including CBT problems, that may arise during the bar examination. If you are instructed to follow another procedure, such as writing your essay answers due to a technical difficulty with your laptop, you must comply immediately. Please be aware that you will not be permitted to make up any lost time due to your failure to immediately comply with such a request. If you experience a malfunction with your computer or software, for any reason, you must immediately notify a proctor who will provide answer books to continue handwriting the remainder of your examination. You should start handwriting your answer from the point you stopped typing using CBT. The software saves each minute so you do not have to handwrite that portion of your answer that you typed using CBT. The typed CBT text of your answer has been saved and will be retrieved after the examination session is completed. If you need help to save your answer data, the ExamSoft Site Engineer can assist you after the testing session has ended at either noon or 4:30 p.m. Once you start handwriting the PT/essay answers, you cannot return to CBT for any reason. You should place your defective computer in the top corner of your table area. Thank you in advance for your understanding and cooperation.

Please take the time to read all of the materials provided with your *Admission Ticket*, which details specific requirements for CBT applicants. Below, are some important points:

### **Prior to Arrival at Examination Site -**

1. You **must** disable all screensavers and/or hibernation features currently installed on your laptop computer and, if possible, set all volume controls to the lowest possible setting.
2. Please remove all external media such as DVDs, CDs, floppy disks, USB memory drives and etc.
3. Please make sure your computer case/bag is clearly marked with your name prior to arriving at the examination site. You cannot take your computer case/bag into the examination room. You will be required to store it in the unsecured applicant lobby area.

**Early Arrival at Examination Site** - You will be admitted at 8:15 a.m. and directed to your CBT section and seat. The CBT examination room will have your pre-assigned (with your applicant examination number) seat with a power strip. Once you have located your assigned seat, you should immediately begin setting up your computer, and begin the boot up process. Each seat will be provided with pre-examination instructions for you to follow. The pre-examination instructions detail the process for booting up your laptop computer and initializing the SofTest program. The instructions have several steps and will bring you to the "Begin" screen, which is immediately prior to the Performance Test (PT) answer screen. If you have any problems during the boot up process, please notify a proctor immediately who will give you answer books and you will be required to handwrite the entire PT/essay portion of the bar examination. **NO TECHNICAL HELP WILL BE AVAILABLE.**

Any CBT applicant who is not seated with their computer at the "Begin" screen at 8:35 a.m. will be required to handwrite the entire examination.

**Morning Session** - The session consists of the PT and two essay questions and lasts for three hours. Because this session is considered one test, you are permitted to access your answers to the PT and essay questions 1 & 2 throughout the session.

(over)

**Completion of Examination Session (AM or PM) Prior to Time Being Called** - If you complete the essay examination before the 10-minute announcement is given, you can follow the post-examination instructions to save your answers. Please follow the post examination instructions to save and exit the program. Once the saving process has been completed, raise your hand and a proctor will collect your test materials and you may leave the examination room. Your laptop computer must remain on from boot-up at 8:15 a.m. until the end of testing at 4:30 p.m. During periods of non-testing, your laptop computer must remain at the Windows desktop.

**NOTE:** Once you save your answers and exit the program, your examination session is completed and you cannot reopen SofTest.

**Completion of Examination Session (AM or PM) After Time is Called** - Each table will be provided with post-examination instructions for you to follow.

**Lunch Period - NOTE: YOUR LUNCH PERIOD IS SHORT, PLAN ACCORDINGLY!**

1. **Dismissal** - Once all your test materials have been collected, you will be dismissed for lunch (approximately 12:10 p.m.). If you are having difficulty saving your answer file to your laptop, please remain in the examination room so the ExamSoft Site Engineer can assist you. (Note: The only technical support available by the ExamSoft Site Engineer is saving data files after the testing has concluded.) Your laptop must remain in the examination room during the lunch period.
2. **Return** - You will be permitted to enter the examination room at 1:00 p.m. to begin the boot up process. If you have any problems with the boot up process, please notify a proctor immediately who will provide you with answer books to handwrite the entire afternoon essay session. (Again, no technical support is available for boot-up.). General afternoon instructions will begin at 1:15 p.m.

**Afternoon Session** - Boot-up instructions for CBT procedures are identical to those for the morning session. This session consists of four essay questions and lasts for three hours. Because this session is considered one test, you are permitted to access your answers to essay questions 3 thru 6 throughout the session.

**End-of-Day** - Similar to the morning session, if you complete the examination prior to the 10-minute announcement, you may leave the examination room. However, you **may not** pack-up, disassemble, turn off, or make any other modifications to your computer other than following the process for saving and backing up your essay answers. You must return to the examination room after all writing applicants have been dismissed (approximately 4:40 p.m.), at which time you may retrieve your laptop computer.

**Wednesday - MBE** - You will sit in your assigned seat. **DO NOT** bring your computer. You will not be permitted to bring it into the test room and the applicant lobby is not secure.

**Post Examination:** Your hard drive will contain an encrypted version of your essay answers that will be used in the event of a catastrophic failure. Reformatting your hard drive will delete these files and will render your examination invalid. ***DO NOT reformat your hard drive until after examination results have been released in April for the February examination or October for the July examination.*** If any problems occur during the printing of your essay answers, you will be contacted and required to produce your laptop computer for analysis of the encrypted version of SofTest on your hard drive.

The Board of Law Examiners and its staff have worked very hard to ensure the success of the CBT program, and again, we want to thank you for taking the time to read all of the detailed instructions and documents that have been provided to you. Our goal has always been to provide the best testing environment, and the more information we can distribute detailing the administrative process prior to the exam, will allow you to fully focus your attention on studying for and successfully completing the bar examination. We look forward to receiving your feedback and, as always, are open to any suggestions you may have for improving CBT and the bar examination process. Thank you.
